

## Pop-Up Tent Setup Instructions

Standard 10x10 Tent (2–4 people recommended)

---

### Before You Begin

#### Check Contents:

- Collapsed tent frame (with canopy top attached)
- Stakes or weights
- Ropes or straps (if applicable)

#### Choose a Safe Setup Area:

- Flat, level ground
  - Clear of power lines and tree branches
  - At least 1–2 feet of space around each side
- 

### Step-by-Step Setup

#### 1. Position the Frame

- With 2+ people, stand the collapsed frame upright in the desired location.
- Gently pull from **diagonal corners**—**do not fully extend yet**.

#### 2. Expand the Frame

- With one person at each corner, **slowly walk** the frame outward.
- Stop just **before** it fully locks open.

### 3. Lock the Frame

- Push up the **center truss bars** (beneath the canopy) until they **click** into place.
- At each leg, push the **corner sliders** up until they **snap** and lock.

### 4. Raise the Legs

- Press the **height-adjustment button** on one leg and lift to the desired height.
- Repeat for all legs, adjusting evenly.
- One person should stabilize the frame during this step.

### 5. Secure the Tent

#### Option A: Weights (Recommended)

- Attach weights (sandbags, plates, or barrels) to each leg.
- Use strong straps or ties to fasten securely.

#### Option B: Stakes (Soft Ground Only)

- Drive stakes through foot plates at a 45° angle.
- Optional: Attach and stake guy lines from top corners for extra stability.

### 6. Final Checks

- Canopy should be **taut** and well-aligned.
- Confirm **all joints and sliders** are locked.
- Ensure **weights or stakes** are firmly secured.

---

### You're Done!

Your tent is now set up and secure.

- ✓ Periodically check the structure, especially after wind or rain.
